GOOD TALKS ARE GIVEN

With T. J. Allen as toastmaster and 38 men present, the First Christian church held its first annual banquet Friday evening at the church. An elaborate menu, prepared and served by the young ladies of the church, graced the banquet, and between the toasts hymns were sung by all present. Following were the speakers and the subjects they were called upon to talk about:

"Why Here," Dr. T. M. Faddis; "How to Reach Men," J. D. Berryman; "How to Hold the Men," Wm. McFall; "Young People in the Church," Walter Ailes; "The Outlook," E. C. Drum; "Our Good Women," William Jones; "Live Wires," Harvey Brown; "The Church and Men," Guy Moffitt, Esq.; "Our Obligation," Rev. E. N. Duty.

W. S. James, who was present, was called upon for an impromptu toast, and responded in a happy vein. Toastmaster Allen said that the church was 22 years old, and that this banquet should have been the 22nd annual affair instead of the first. Everything passed off auspiciously, and all present had a delightful time.

CALIFORNIA TESTIMONY IS ALL IN

Murder Trial Complicated by Indefinite Evidence

TWO ARE DISCHARGED

The testimony in the murder case at Washington, where Charles and John Darbin and Frank Cicero are on trial for killing Santo Cicero and fatally wounding Frank Genoa in a Christmas morning fight at California, was closed Friday, and the case adjourned until this morning, when the arguments will be made. Mrs. Darbin and her son Jimmie, who had been in jail as accessories, were released Friday, as no evidence was produced to show their complicity in the case.

On account of the complicated testimony and numerous aliases of the witnesses, the case was difficult to follow. It was shown that the defendants were at Darbin's store on Christmas eve, and that the festivities extended far into the morning a fight over a game of cards was started, in which Santo Cicero was shot and killed, and Frank Genoa was fatally wounded. It is charged that the shooting was done by Dominick Palmeteri and Joseph Cicero, who were in the party, but who escaped and have not yet been apprehended. All the parties involved are Italians.

RICHEY FAMILY TO HOLD REUNION

Members of Clan to Gather at Dunlap's Grove on Memorial Day

The annual reunion of the Richey family, will be held at the Dunlap's Creek academy grounds in Fayette county near Masontown on Memorial day, May 30. Many prominent families are connected with the reunion association and will attend the affair.

The late Mrs. Hamilton Newcomer of South Brownsville, a daughter of the late William and Eleanor Richey of Fayette county, was the "mother" of the Richey Reunion. At her suggestion a meeting of the children and grand children took place at the home of Mrs. T. A. Lang, at Grays Landing on Memorial Day, 1905. Since then the reunion has been an annual affair and it has been so enlarged that it takes in the descendants of the brothers and sisters of Wiliam and Eleanor Richey, making a large clan.

A history of the family is being prepared by John W. Williard and Attorney J. W. Dawson, of Fayette county, and this will be ready for distribution at the time of the reunion.

A number of professional and business men belong to the clan and among the many features of the reunions have been good speches. This year a debate between Prof. Madison Hatfield, of Morgantown, W. Va. and Attorney Dawson, of Uniontown on the subject of woman suffrage will be a feature.

Among the families connected with the Richey family are several from Washington county, including those of W. R. Richey, Charles R. Newcomer, Harrison Dawson and James Dawson of Charleroi and George W. Richey and Thomas Newcomer of inner county points.

EIGHT TO EACH MILE RAILROAD

Pennsylvania Railroad Figures Show Interesting Comparisons

AVERAGE PAY $7,300

The annual record of transportation lines of the Pennsylvania Railroad system has just been issued. It shows that the company now has 11,044 miles of line and 25,695 miles of track. There are now 100,000 shareholders interested in these lines, or nearly four for every mile of trackage.

A compilation shows that the system paid out last year $188,749,312 in wages, or $7,346 for every mile of track, and that there are more than eight employes for every mile. The record reflects the intensive development of the system demanded by the public, in the direction of improved terminal facilities, second, third, and fourth track, yards and sidings, in order to handle increasing traffic economically and promptly.

While the present mileage of the system is only 1,088 greater than in 1902, there has been an increase of 1,335 miles in second track, 277 in third track, and 224 in fourth track. Since 1902 the mileage of "Company sidings," as they are called, has been increased from 5,916 to 8,965, or 3,049 miles,—every mile of which enables the company to expedite the movement of trains in congested periods.

A MILE OF RAILROAD

The recently published official statement of the Pennsylvania Railroad company that the corporation pays out an average of $7,346 for every mile of track, and that there are more than eight employes for every mile, shows to what extent this corporation benefits the community in an industrial way through which it passes. In Charleroi we have considerably more than one mile of track and sidings, and if the local payroll of the Pennsylvania Railroad employes were to be made public, it would be found to exceed a considerable extent the average per mile. This payroll, though small when compared with some of the big industries, is nevertheless an important one among the aggregate of "small industries," as they are called, which are really more essential to the prosperity and well being of a community than a single big concern.

As a matter of fact the Pennsylvania Railroad company is not only widely didspersed throughout the country, when it comes to disbursing its payroll, but the stockholders are equally distributed. This corporation is not, as is popularly believed, owned and controlled by a small body of magnates. One hundred thousand people own the stock of the company, and the dividends that are paid are as widely dispersed as the payroll. In considering small industries a community is apt to not consider the local railroad, but it is well to realize that wherever a mile of Pennsylvania Railroad track traverses a locality, it gives employment to an average of eight men, with a yearly payroll of not less than $7,346. This is what the Pennsylvania Railroad company does directly as an industry to the community through which it passes, to say nothing of the benefits of the transportation and public service it affords.

A SHADE TREE COMMISSION

Charleroi should have a shade tree commission. This is a body that can be appointed by council, and the state law gives the commission authority to cause trees to be planted and direct their care and locations, in the same manner that street grading and paving is done and sidewalks built and maintained. Trees are essential to every community, not only in appearance and beauty, but they exercise a potent influence upon the health of the people.

It will be noted that our neighboring borough of Washington has a shade tree commission, and that the council voted the sum of $1,000 this week for the purpose of defraying the expenses of the department. This work is most essential to the progress and prosperity of the town, and beauty and comfort are potent factors in inducing people to locate here. While other towns may outstrip us industrially, and may be better locations from a wage earners' point of view, it is still within our power to maintain the lead we have in the matter of civic and natural advantages. The appointment of a shade tree commission by the council, which, with the assistance of borough engineer, could prepare and urge a comprehensive plan of tree planting, will do much to place the town in a position where it will grow in attractiveness. It is worth the effort.

PICKED UP IN PASSING

The following lines, published in the Kittanning Times, were handed in by an observant reader, which, as the Times aptly remarks, come very close to "the naked truth:"

"Little girl, you look so small.
Don't you wear no clothes at all?
Don't you wear no "shimmy" shirt?
Don't you wear no petty skirt?
Just your corset and your hose—
Are these all your underclothes?
Little girl, when on the street,
You appear to be all feet.
With your dress so very tight
You're indeed an awful sight;
Nothing on to keep you warm.
Crazy just to show your form.
Little girl, you won't live long.
Just because you dress all wrong.
Can't you wear more underclothes
Than your corset and your hose?
After while I do believe
You will dress like Mother Eve."

It is stated that a grade teacher recently in a nearby school was giving a lesson in fractions to a class of young hopefuls.

"Now," said the teacher, "who can tell how many thirds in a whole?"

A small begrimed hand was raised from one of the small boys in the class.

"Well, how many is it, Tommy?" asked the teacher.

"Why," replied Tommy, with great assurance, "it all depends on the size of the hole."

A woman on the hill who employed a colored washerwoman, called the latter to account because of carelessness in doing her work.

"You must be more careful in your work," said the lady of the house. I want the spots rubbed out of all these clothes, and then rinse them in two waters. I hope now that you understand my attitude."

"Yes'm, yes'm, ah understands yo' attitude, but not yo' pernicketousness, an ah hereby resigns," replied the lady of the tubs, who straightway rolled down her sleeves and departed.

PROUD OF HIS SELF-CONTROL

Mrs. Brown Could Agree With Her Liege Lord, Too, That It Was Something Uncommon.

Mr. Brown was excitable by nature, but he often prided himself audibly upon his self-control. One night while the family were gathered at the tea table the chimney began to roar; the furnace draft had been opened and forgotten. Straightway a panic ensued.

"Don't lose your heads—keep cool!" cried Mr. Brown. "It's nothing serious."

He dashed up the stairs, discovered that the metal cap over the only unused stovepipe hole was already red hot, and dashed down again faster than he went up.

"K-keep cool!" he gasped, as he passed through the room where the family had gathered in nervous apprehension. "I'll be back in a minute."

He was back in less than that time, having observed that the flames were spouting several feet high from the chimney, and that a shower of sparks was falling upon the roof.

"Wh-where's the step-ladder?" he panted.

He was gone before anyone could answer the question, and presently was heard bellowing from the roof of the woodshed. He presented an heroic figure in the glare of the blazing chimney.

"I've got one end of the hose!" he called. "Some one attach the other end and turn on the water—quick!"

Two long minutes passed.

"Why doesn't some one do as I ordered?" he thundered. "Do you want the place to burn up?"

"We can't, Henry!" called Mrs. Brown, tremblingly. "You haven't got the hose—you've got the cow-rope. It was hanging next to the hose in the shed. And anyway, the roof is covered with ice, and I don't think there's any great danger outside. You'd better go and watch the chimney from the inside."

A half-hour later the family were again at the tea table.

"If this had happened in some homes," remarked Mr. Brown, "the family would have lost their heads completely and sent in an alarm. Self-control is an excellent thing—and far from common."

"Indeed it is!" agreed Mrs. Brown, emphatically.—Youth's Companion.

BASEBALL FOR THE FARMER

Possibly the Game Might Be of Benefit to Him, But It Is Hardly Indispensable.

Baseball never has been regarded exclusively as a city product. While it is true that the cities supply the enormous crowds that support the big leagues, it is equally true that many of the players in those leagues are graduates of the "bush" leagues. The country boy has an equal chance with the city boy to win the high honors and generous emoluments of a successful ball player. The farmer himself has not come directly in touch with the national game, perhaps, except on a rare holiday. A professor in the Kansas State Agricultural college calls this a mistake. Familiarity with the game, he believes, would promote success in agriculture. If the farmer would play ball "it would take the shamble out of his walk" and "make him decide quickly." This is an interesting theory, but it will not be universally accepted. Some will contend that the motor car has already taken the "shamble" out of the farmer's walk. Others will insist that handling a high spirited horse or pitching a load of hay on a wagon while a thunderstorm is gathering is just as valuable in training his mental faculties to quick action.—Rochester Democrat and Chronicle.

Rose Culture in Bulgaria.

White and red roses are grown, the former being easier to cultivate, but giving only about half as much oil of an inferior quality. The individual growers distil their own oil. Twelve to fifteen kilos of roses are distilled with 60 kilos of water until 12 kilos of distillate are obtained; eight to ten such lots are then united, and redistilled into long necked flasks, in which the oil separates on standing. To produce one kilo of oil requires 8,000 kilos of roses of 1,200,000 flowers. The roses are gathered in the early morning and distilled the same day. The pure oil from the various districts shows variations in odor and physical properties, and is therefore skillfully blended by the distributing houses before sale. Adulteration is very largely carried on by the peasants, who use ginger grass oil, palma rosa oil, geranium oil, etc. The production for 1910 was 3,148 kilos.—The Pharmaceutical Era.

We Are Creatures of Habit.

There was no rush at the moment and the ticket chopper had time to talk to the man waiting for a friend in a subway station. "Yes, we see lots of queer people here," he said, "and we have nearly the same people every day and at the same hour. I know men who do not vary a minute in a week in their reaching the ticket box. The queerest man we have at this station we call 'the whistler.' Every morning at 7:20 he drops his ticket in the box and he always whistles. That wouldn't be so funny, but for years it has always been the same tune. We all know the tune, but no one knows the song. His ticket goes in the box at the same note every morning, and then he walks to the third post, opens his paper and whistles till the train comes."—New York Tribune.

TENDERLOIN PLAY AT COYLE THEATRE

Manager R. S. Coyle has booked another King Bagot feature for Monday at the Coyle Theatre. This is "The Rise of Officer 174," in two reels. The plot also shows a brisk modern episode in the management of modern city affairs.

BEALLSVILLE CHURCH TO UNDERGO REPAIRS

Estimates for the proposed Sunday school room and also an improved basement for the Beallsville Methodist Episcopal church have been submitted. The estimates cost for the new Sunday school room is $4,000, while that for the basement with a reseated church is $2,000. The pastor the Rev. John W. King, has placed cards in the hands of the congregation asking that each member express himself on the card which he prefers. The trustees of the church will then decide which will be constructed by the majority on one side or the other.

Pullman Car Social Held

A pullman car social was held at the Methodist Episcopal church Friday night, that proved an interesting feature. It was under the auspices of the Epworth League. The social consisted of an imaginary train ride from Brownsville to Ridgeview Park during the course of which a program of much merit was rendered by members of the Epworth League.

FREE TO YOU—MY SISTER

Free to You and every Sister Suffering from Woman's Ailments.

I am a woman.
I know woman's sufferings.
I have found the cure.
I will mail, free of any charge, my [illegible] treatment with full instructions to any [illegible] woman's ailments. I want to tell [illegible] this cure—you, my reader, for yourself, [illegible] daughter, your mother, or your sister. I will tell you how to cure yourselves at home without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is safe and sure cure for Leucorrhoea or Whitish Discharges, Ulceration, Displacement or Falling of the Womb, Profuse, Scanty or Suppressed Periods, Uterine or Ovarian Tumors, or Growths; also pains in head, back and bowels, bearing down feelings, nervousness, creeping feeling up the spine, melancholy, desire to cry, hot flashes, weariness, kidney, and bladder troubles where caused by weaknesses peculiar to our sex.

I want to send you a complete ten day's treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember, that it will cost you nothing to give the treatment a complete trial; and if you wish to continue, it will cost you only about 12 cents a week or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you free of cost, my book—"WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it, and learn to think for herself. Then when the doctor says—"You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all old or young. To Mothers of Daughters, I will explain a simple home treatment which speedily and effectually cures Leucorrhoea, Green Sickness and Painful or Irregular Menstruation in young Ladies. Plumpness and health always results from its use.

Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell any sufferer that this Home Treatment really cures all women's diseases, and makes women well, strong, plump and robust. Just send me your address, and the free ten day's treatment is yours, also the book. Write to-day, as you may not see this offer again. Address

The "tips" outwear the gloves

"The Kayser" SILK Glove

is the World's standard silk glove—all other silk gloves are measured by the "KAYSER" standard.

The development of the "KAYSER" Silk Glove represents the attainment of an ideal, the achievement of which has not been hampered by restrictions of cost or time, nor influenced by a passing demand for features most aptly characterized as "talking points."

We could not afford to buy expensive advertising space "year after year," to tell the women of America that "KAYSER" Gloves are the best—in style, fit and finish—if it were not true.

"KAYSER" gloves "cost no more" than the ordinary kind—and are worth double in quality, fit and value. Don't accept the "just as good" kind, there's a way to tell the genuine—"Look in the Hem"—if you find the name "KAYSER"—you have the kind that "don't wear out" at the finger ends.

TWO WOMEN SAVED FROM OPERATIONS

By Lydia E. Pinkham's Vegetable Compound—Their Own Stories Here Told.

Beatrice, Neb.—"Just after my marriage my left side began to pain me and the pain got so severe at times that I suffered terribly with it. I visited three doctors and each one wanted to operate on me but I would not consent to an operation. I heard of the good Lydia E. Pinkham's Vegetable Compound was doing for others and I used several bottles of it with the result that I haven't been bothered with my side since then. I am in good health and I have two little girls."—Mrs. R. B. CHILD, Beatrice, Neb.

The Other Case.

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation, but my husband thought I had better write to you and I did so, stating my symptoms. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your Vegetable Compound."—Mrs. HAYWARD SOWERS, Cary, Maine.

A MERCILESS JUDGE

One Who Shows No Favor.

A merciless judge is Father Time. Before him the weak and the wanting go to the wall. Only the truth can stand. For years the following statement from a Charleroi resident has withstood this sternest of all tests.

Mrs. Charles Bromwich, 714 Washington avenue, Charleroi, Pa., says: "About two years ago I had a severe attack of kidney disease and suffered a great deal from pains in the small of my back. I also had headaches and a feeling of languor and although I tried a number of remedies, I was not helped. Doan's Kidney Pills were finally recommended to me and deciding to try them, I got a box at Piper Bros.' Drug Store. In a few days after using this remedy, I felt a great deal better and before long was completely cured. I recommend Doan's Kidney Pills as highly today as when I gave a public statement for them two years agoo. The cure has been permanent."

FLOWER DAY IS EVENT OF TODAY FOR HOSPITALS

Flower day will be celebrated throughout Western Pennsylvania Saturday, May 24, for the benefit of the many sick and crippled children in the Children's Hospital of Pittsburg. The sad condition of the helpless little people and the wonderful work being done by the hospital to restore them to health and strength combine to make an appeal to the generosity of the community that cannot well be ignored. The hospital is nonsectarian, takes little patients in almost hopeless stages of disease from all sections, principally from families of the poor, and carries on its splendid work entirely supported by charity.

The managers of the hospital have decided to sell a little red rose for the benefit of the unfortunate sufferers. Those who wear the buttonaire may feel that they have done something to take a little half-famished sufferer from a home of poverty and provide the necessary food, medical and surgical skill and careful nursing to restore health and strength. Those unfamiliar with the work of the hospital on Forbes street will be amazed at the wonders accomplished. Little babes, boys and girls, are taken to the hospital when there seems no hope. Careful nursing and proper food help to bring about cures that are little less than miracles. All of the good done depends upon the generosity of those who have the health and strength to earn for themselves a livelihood. No charity in Western Pennsylvania is more worthy and not one is more in need of funds to carry on and extend the great work.

President Barney Dreyfuss has arranged to have members of the Pittsburg baseball team sell the little red flowers from automobiles in Fifth and Sixth avenues in Pittsburg today. Men, as well as hundreds of women, will do all they can to raise a fund that will do substantial good for the little cripples. A little red rose in the lapel today in Pittsburg will be a badge of honor and a credit to the wearer.

The river will attain a stage of near 24 feet at the lower gauge at North Charleroi, if it lives up to the expectations of rivermen. Rains at headwaters this week caused the rise. The river was falling at Fairmont, W. Va., at 8 o'clock this morning, and was stationary at Rosebord. At Greensboro when the report was received it was rising.

MEN OF CHURCH BANQUET

First Annual Gathering of Kind Takes Place at Christian Church

GOOD TALKS ARE GIVEN

With T. J. Allen as toastmaster and 38 men present, the First Christian church held its first annual banquet Friday evening at the church. An elaborate menu, prepared and served by the young ladies of the church, graced the banquet, and between the toasts hymns were sung by all present. Following were the speakers and the subjects they were called upon to talk about:

"Why Here," Dr. T. M. Faddis; "How to Reach Men," J. D. Berryman; "How to Hold the Men," Wm. McFall; "YoungPeople in the Church," Walter Ailes; "The Outlook," E. C. Drum; "Our Good Women," William Jones; "Live Wires," Harvey Brown; "The Church and Men," Guy Moffitt, Esq.; "Our Obligation," Rev. E. N. Duty.

W. S. James, who was present, was called upon for an impromptu toast, and responded in a happy vein. Toastmaster Allen said that the church was 22 years old, and that this banquet should have been the 22nd annual affair instead of the first. Everything passed off auspiciously, and all present had a delightful time.

CALIFORNIA TESTIMONY IS ALL IN

Murder Trial Complicated by Indefinite Evidence

TWO ARE DISCHARGED

The testimony in the murder case at Washington, where Charles and John Darbin and Frank Cicero are on trial for killing Santo Cicero and fatally wounding Frank Genoa in a Christmas morning fight at California, was closed Friday, and the case adjourned until this morning, when the arguments will be made. Mrs. Darbin and her son Jimmie, who had been in jail as accessories, were released Friday, as no evidence was produced to show their complicity in the case.

On account of the complicated testimony and numerous aliases of the witnesses, the case was difficult to follow. It was shown that the defendants were at Darbin's store on Christmas eve, and that the festivities extended far into the morning a fight over a game of cards was started, in which Santo Cicero was shot and killed, and Frank Genoa was fatally wounded. It is charged that the shooting was done by Dominick Palmetera and Joseph Cicero, who were in the party, but who escaped and have not yet been apprehended. All the parties involved are Italians.

RICHEY FAMILY TO HOLD REUNION

Members of Clan to Gather at Dunlap's Grove on Memorial Day

The annual reunion of the Richey family, will be held at the Dunlap's Creek academy grounds in Fayette county near Masontown on Memorial day, May 30. Many prominent families are connected with the reunion association and will attend the affair.

The late Mrs. Hamilton Newcomer of South Brownsville, a daughter of the late William and Eleanor Richey of Fayette county, was the "mother" of the Richey Reunion. At her suggestion a meeting of the children and grand children took place at the home of Mrs. T. A. Lang, at Grays Landing on Memorial Day, 1905. Since then the reunion has been an annual affair and it has been so enlarged that it takes in the descendants of the brothers and sisters of Wiliam and Eleanor Richey, making a large clan.

A history of the family is being prepared by John W. Williard and Attorney J. W. Dawson, of Fayette county, and this will be ready for distribution at the time of the reunion.

A number of professional and business men belong to the clan and among the many features of the reunions have been good speches. This year a debate between Prof. Madison Hatfield, of Morgantown, W. Va. and Attorney Dawson, of Uniontown on the subject of woman suffrage will be a feature.

Among the families connected with the Richey family are several from Washington county, including those of W. R. Richey, Charles R. Newcomer, Harrison Dawson and James Dawson of Charleroi and George W. Richey and Thomas Newcomer of inner county points.

EIGHT TO EACH MILE RAILROAD

Pennsylvania Railroad Figures Show Interesting Comparisons

AVERAGE PAY $7,300

The annual report of transportation lines of the Pennsylvania Railroad system has just been issued. It shows that the company now has 11,644 miles of line and 25,695 miles of track. There are now 100,000 shareholders interested in these lines, or nearly four for every mile of trackage.

A compilation shows that the system paid out last year $188,749,312 in wages, or $7,346 for every mile of track, and that there are more than eight employes for every mile. The record reflects the intensive development of the system demanded by the public, in the direction of improved terminal facilities, second, third, and fourth track, yards and sidings, in order to handle increasing traffic economically and promptly.

While the present mileage of the system is only 1,088 greater than in 1902, there has been an increase of 1,335 miles in second track, 277 in third track, and 224 in fourth track. Since 1902 the mileage of "Company sidings," as they are called, has been increased from 5,916 to 8,965, or 3,049 miles,—every mile of which enables the company to expedite the movement of trains in congested periods.

A MILE OF RAILROAD

The recently published official statement of the Pennsylvania Railroad company that the corporation pays out an average of $7,346 for every mile of track, and that there are more than eight employes for every mile, shows to what extent this corporation benefits the community in an industrial way through which it passes. In Charleroi we have considerably more than one mile of track and sidings, and if the local payroll of the Pennsylvania Railroad employes were to be made public, it would be found to exceed a considerable extent the average per mile. This payroll, though small when compared with some of the big industries, is nevertheless an important one among the aggregate of "small industries," as they are called, which are really more essential to the prosperity and well being of a community than a single big concern.

As a matter of fact the Pennsylvania Railroad company is not only widely didspersed throughout the country, when it comes to disbursing its payroll, but the stockholders are equally distributed This corporation is not, as is popularly believed, owned and controlled by a small body of magnates. One hundred thousand people own the stock of the company, and the dividends that are paid are as widely dispersed as the payroll. In considering small industries a community is apt to not consider the local railroad, but it is well to realize that wherever a mile of Pennsylvania Railroad track traverses a locality, it gives employment to an average of eight men, with a yearly payroll of not less than $7,346 This is what the Pennsylvania Railroad company does directly as an industry to the community through which it passes, to say nothing of the benefits of the transportation and public service it affords.

A SHADE TREE COMMISSION

Charleroi should have a shade tree commission. This is a body that can be appointed by council, and the state law gives the commission authority to cause trees to be planted and direct their care and locations, in the same manner that street grading and paving is done and sidewalks built and maintained. Trees are essential to every community, not only in appearance and beauty, but they exercise a potent influence upon the health of the people.

It will be noted that our neighboring borough of Washington has a shade tree commission, and that the council voted the sum of $1,000 this week for the purpose of defraying the expenses of the department. This work is most essential to the progress and prosperity of the town, and beauty and comfort are potent factors in inducing people to locate here. While other towns may outstrip us industrially, and may be better locations from a wage earners point of view, it is still within our power to maintain the lead we have in the matter of civic and natural advantages. The appointment of a shade tree commission by the council, which, with the assistance of borough engineer could prepare and urge a comprehensive plan of tree planting, will do much to place the town in a position where it will grow in attractiveness. It is worth the effort.

PICKED UP IN PASSING

The following lines, published in the Kittanning Times, were handed in by [illegible]

"Little girl, you look so small
Don't you wear no "shame my" stuff?
Don't you want to potty call?
Just your corset and your nose—
Are these all your underclothes?
Little girl, when on the street
You appear to be all feet.
With your dress so very tight
You're missed an awful sight
Nothing on to keep you warm.
Crazy just to show your form.
Little girl, you won't live long.
Just because you dress all wrong.
Can't you wear more underclothes
Than your corset and your hose?
After while I do believe
You will dress like Mother Eve."

It is stated that a grade teacher recently in a nearby school was giving a lesson in fractions to a class of young nopefuls.

"Now," said the teacher, "who can tell how many thirds in a whole?"

A small begrimed hand was raised from one of the small boys in the class.

"Well, how many is it, Tommy?" asked the teacher.

"Why," replied Tommy, with great assurance, "it all depends on the size of the hole."

A woman on the hill who employed a colored washerwoman, called the latter to account because of carelessness in doing her work.

"You must be more careful in your work," said the lady of the house I want the spots rubbed out of all these clothes, and then rinse them in two waters. I hope now that you understand my attitude."

"Yes'm, yes'm, ah understands yo' attitude, but not yo' pe.snicketousness, an ah hereby resigns," replied the lady of the tubs, who straightway rolled down her sleeves and departed

PROUD OF HIS SELF-CONTROL

Mrs. Brown Could Agree With Her Liege Lord, Too, That It Was Something Uncommon.

Mr. Brown was excitable by nature, but he often prided himself audibly upon his self-control. One night while the family were gathered at the tea table the chimney began to roar; the furnace draft had been opened and forgotten. Straightway a panic ensued.

"Don't lose your heads—keep cool!" cried Mr. Brown. "It's nothing serious."

He dashed up the stairs, discovered that the metal cap over the only unused stovepipe hole was already red hot, and dashed down again faster than he went up.

"K-keep cool!" he gasped, as he passed through the room where the family had gathered in nervous apprehension. "I'll be back in a minute."

He was back in less than that time, having observed that the flames were spouting several feet high from the chimney, and that a shower of sparks was falling upon the roof.

"Wh-where's the step-ladder?" he panted.

He was gone before anyone could answer the question, and presently was heard bellowing from the roof of the woodshed. He presented an heroic figure in the glare of the blazing chimney.

"I've got one end of the hose!" he called. "Some one attach the other end and turn on the water—quick!"

Two long minutes passed.

"Why doesn't some one do as I ordered?" he thundered. "Do you want the place to burn up?"

"We can't, Henry!" called Mrs. Brown, tremblingly. "You haven't got the hose—you've got the cow rope. It was hanging next to the hose in the shed. And anyway, the roof is covered with ice, and I don't think there's any great danger outside You'd better go and watch the chimney from the inside."

A half-hour later the family were again at the tea table.

"If this had happened in some homes," remarked Mr. Brown, "the family would have lost their heads completely and sent in an alarm Self-control is an excellent thing—and far from common."

"Indeed it is!" agreed Mrs. Brown, emphatically.—Youth's Companion.

BASEBALL FOR THE FARMER

Possibly the Game Might Be of Benefit to Him, But It Is Hardly Indispensable.

Baseball never has been regarded exclusively as a city product. While it is true that the cities supply the enormous crowds that support the big leagues, it is equally true that many of the players in those leagues are graduates of the "bush" leagues. The country boy has an equal chance with the city boy to win the high honors and generous emoluments of a successful ball player. The farmer himself has not come directly in touch with the national game, perhaps, except on a rare holiday. A professor in the Kansas State Agricultural college calls this a mistake Familiarity with the game, he believes, would promote success in agriculture. If the farmer would play ball "it would take the shamble out of his walk and make him decide quickly." This is an interesting theory, but it will not be universally accepted. Some will contend that the motor car has already taken the "shamble" out of the farmer's walk Others will insist that handling a high spirited horse or pitching a load of hay on a wagon while a thunderstorm is gathering is just as valuable in training his mental faculties to quick action.—Rochester Democrat and Chronicle.

Rose Culture in Bulgaria.

White and red roses are grown, the former being easier to cultivate, but giving only about half as much oil of an inferior quality. The individual growers distil their own oil. Twelve to fifteen kilos of roses are distilled with 60 kilos of water until 12 kilos of distillate are obtained; eight to ten such lots are then united, and redistilled into long necked flasks, in which the oil separates on standing. To produce one kilo of oil requires 3,000 kilos of roses of 1,200,000 flowers The roses are gathered in the early morning and distilled the same day. The pure oil from the various districts shows variations in odor and physical properties, and is therefore skillfully blended by the distributing houses before sale. Adulteration is very largely carried on by the peasants, who use ginger grass oil, palma rosa oil, geranium oil, etc. The production for 1910 was 3,148 kilos.—The Pharmaceutical Era.

We Are Creatures of Habit.

There was no rush at the moment and the ticket chopper had time to talk to the man waiting for a friend in a subway station. "Yes, we see lots of queer people here," he said, "and we have nearly the same people every day and at the same hour. I know men who do not vary a minute in a week in their reaching the ticket box. The queerest man we have at this station we call 'the whistler.' Every morning at 7:20 he drops his ticket in the box and he always whistles. That wouldn't be so funny, but for years it has always been the same tune. We all know the tune, but no one knows the song. His ticket goes in the box at the same note every morning, and then he walks to the third post, opens his paper and whistles till the train comes."—New York Tribune.

TWO WOMEN SAVED FROM OPERATIONS

By Lydia E. Pinkham's Vegetable Compound—Their Own Stories Here Told.

Beatrice, Neb.—"Just after my marriage my left side began to pain me and the pain got so severe at times that I suffered terribly with it. I visited three doctors and each one wanted to operate on me but I would not consent to an operation. I heard of the good Lydia E. Pinkham's Vegetable Compound was doing for others and I used several bottles of it with the result that I haven't been bothered with my side since then. I am in good health and I have two little girls."—Mrs. R. B. CHILD, Beatrice, Neb.

The Other Case.

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation, but my husband thought I had better write to you and I did so, stating my symptoms. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your Vegetable Compound."—Mrs. HAYWARD SOWERS, Cary, Maine.

FREE TO YOU—MY SISTER

Free to You and every Sister Suffering from Woman's Ailments.

I am a woman.
I know woman's sufferings.
I have found the cure.
I will mail, free of any charge, my home treatment with full instructions to any sister sufferer who has woman's ailments. I want to tell her about this cure—you, my reader, for yourself, your daughter, your mother, or your sister. I will tell you how to cure yourselves at home, without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is safe and sure cure for Leucorrhoea or Whitish discharges, Ulceration, Displacement or Falling of the Womb, Profuse, Scanty or Painful Periods, Uterine or Ovarian Tumors, or Growths; also pains in head, back and bowels, bearing down feelings, nervousness, creeping feeling up the spine, melancholy, desire to cry, hot flashes, weariness, kidney, and bladder troubles where caused by weaknesses peculiar to our sex.

I want to send you a complete ten day's treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember, that, it will cost you nothing to give the treatment a complete trial: and if you wish to continue, it will cost you only about 12 cents a week or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer if you wish, and I will send you the treatment for your case, entirely free in plain wrapper, by return mail. I will also send you free of cost, my book—"WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it, and learn to think for herself. Then when the doctor says "You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all old or young. To Mothers of Daughters, I will explain a simple home treatment which speedily and effectually cures Leucorrhoea, Green Sickness and Painful or Irregular Menstruation in young Ladies. Plumpness and health always results from its use.

Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell any sufferer that this Home Treatment really cures all women's diseases, and makes women well, strong, plump and robust. Just send me your address, and the free ten day's treatment is yours, also the book. Write today, as you may not see this offer again. Address

"The Kayser" SILK Glove

is the World's standard silk glove—all other silk gloves are measured by the "KAYSER" standard.

The development of the "KAYSER" Silk Glove represents the attainment of an ideal, the achievement of which has not been hampered by restrictions of cost or time, nor influenced by a passing demand for features most aptly characterized as "talking points."

We could not afford to buy expensive advertising space "year after year," to tell the women of America that "KAYSER" Gloves are the best—in style, fit and finish—if it were not true.

"KAYSER" gloves "cost no more" than the ordinary kind—and are worth double in quality, fit and value. Don't accept the "just as good" kind, there's a way to tell the genuine—"Look in the Hem"—if you find the name "KAYSER"—you have the kind that "don't wear out" at the finger ends.

FLOWER DAY IS EVENT OF TODAY FOR HOSPITALS

Flower day will be celebrated throughout Western Pennsylvania Saturday, May 24, for the benefit of the many sick and crippled children in the Children's Hospital of Pittsburg. The sad condition of the helpless little people and the wonderful work being done by the hospital to restore them to health and strength combine to make an appeal to the generosity of the community that cannot well be ignored. The hospital is nonsectarian, takes little patients in almost hopeless stages of disease from all sections, principally from families of the poor, and carries on its splendid work entirely supported by charity.

The managers of the hospital have decided to sell a little red rose for the benefit of the unfortunate sufferers. Those who wear the buttonaire may feel that they have done something to take a little half-famished sufferer from a home of poverty and provide the necessary food, medical and surgical skill and careful nursing to restore health and strength. Those unfamiliar with the work of the hospital on Forbes street will be amazed at the wonders accomplished. Little babes, boys and girls, are taken to the hospital when there seems no hope. Careful nursing and proper food help to bring about cures that are little less than miracles. All of the good done depends upon the generosity of those who have the health and strength to earn for themselves a livelihood. No charity in Western Pennsylvania is more worthy and not one is more in need of funds to carry on and extend the great work.

President Barney Dreyfuss has arranged to have members of the Pittsburg baseball team sell the little red flowers from automobiles in Fifth and Sixth avenues in Pittsburg today. Men, as well as hundreds of women, will do all they can to raise a fund that will do substantial good for the little cripples. A little red rose in the lapel today in Pittsburg will be a badge of honor and a credit to the wearer.

Lots For Sale.
